**GLOBAL REMOTE TECHNOLOGIES ANNOUNCES
MEMORANDUM OF UNDERSTANDING WITH NORTH AMERICAN ENERGY**

Vancouver, B.C. – (June 8, 2015) Global Remote Technologies Ltd. (the “**Company**” or “**Global Remote Technologies**”) (CSE:RGT) is pleased to announce it has entered into a Memorandum of Understanding (the “**MOU**”) with **North American Energy Holdings, LLC**, an LLC operating out of the State of Nevada (“**NAE**”), effective as of June 2, 2015 to develop and support oilfield and energy services to Mexican refineries and to pursue joint ventures within the Mexican oil and gas industry.

Terms of the MOU establish a comprehensive working business relationship between the Company and NAE for mutual consultation regarding quality assurance and control, consultation regarding safety and health matters, generation of reports and aerial site surveys, remote equipment monitoring, and safety monitoring. Pursuant to the MOU, going forward, the Company and NAE also wish to work together to determine the value of new contracts.

In order to accomplish the goals set out in the MOU, the parties intend to carry out one or more of the following:

- NAE will assign its existing Mexican safety contracts to the Company;
- NAE will have existing customers generate new contracts in the name of the Company in replacement of existing contracts;
- NAE will grant the Company an operational license in order for the Company to perform the contracts;
- NAE will become a subsidiary of the Company; and
- the Company may engage the President of NAE as an employee and officer in order to further assist with securing new contracts.

About NAE

NAE is currently active in providing training personnel and consulting services to DuPont, ICA Fluor, Anadarko, Marathon Petroleum, PEMEX, and GDF SUEZ Energy Generation NA, LLC through a service agreement with a two-year term.

NAE contracts safety personnel to Mexican refineries on a daily basis and has existing contracts with companies in Mexico in Mexico’s oilfield and energy services industry. The Company has expertise and products that can support those contracts and NAE would like to offer the Company’s products in support of its business. NAE anticipates that by working with the Company, its business will benefit from the fact that the Company is a public company listed on the Canadian Securities Exchange.

About Global Remote Technologies

Global Remote Technologies focuses on the deployment of emerging technologies for the energy sector. The company has licensed multiple patent pending tools for the oil and gas industry, which are currently being assembled for release in later 2015. Using its advanced engineering and leadership experience, Global Remote Technologies brings cutting edge processes and technology to the oil patch. Its remote sensor packages transmit telemetry from drilling and production sites in real time to a central server where it is viewed in the cloud. The systems are designed to provide key personnel an early warning system to avoid equipment failures or costly compliance fines. Global Remote Technologies collects and communicates vital information on the status of equipment, tanks, and pipelines for exploration, production, and transmission of oil, gas and water. The Company is headquartered in Vancouver, BC, with offices in Denver, Colorado and Houston, Texas.

Further information about the Global Remote Technologies is available under its profile on the SEDAR website, www.sedar.com, on the CSE website, www.thecse.com, and the Company's website, www.grtcse.ca.
